

3 Day Certification Course on Paint Coating Inspection & Quality Control

SCOPE

With thousands of paint formulations, available from various manufacturers, and a lots of new sophisticated Techniques of paints application and surface preparation, paint coating has become a science and art, and every

Person, whether he is a user, supervisor, applicator, supplier or manufacturer needs a proper knowledge in order to get maximum life out of a particular paint formation. Further, paint testing has become necessary both at the pre-qualification stage, during the application and even after the paint has been applied for periodic assessment of its life. Since a large number of paint suppliers, users, supervisors do not have a formal education on paint coatings, education and training through these courses has become necessary to take best out of paint coating.

**What information you require?
Theoretical Knowledge**

Level 1 Course

- *Fundamental knowledge of Corrosion*
- *Basic of paint coatings and chemistry of various*
- *kinds of paints, resins, and formulations, their relation to corrosion protection.*
- *Conventional and advanced coating systems.*
- *Surface preparation methods with latest standards and specification.*
- *Paint Application techniques and best application practice mantras.*
- *Reasons for Paint Failure and its Mechanism.*
- *Paint repair and rehabilitation – maintenance Coatings.*
- *How to write paint specifications?*
- *Safety aspects in paint coating application.*

COURSE DATES

18 to 20 May, 2026 (Level -1)
